About Preview

Preview is an exhibition format where international galleries are invited to dialogue in an unconventional space and showcase works of new artists in their portfolio: the format wants to be the tool through which the invited galleries have the opportunity to collaborate and share innovative perspectives and new visions. The format also aims at giving an alternative narrative to the consolidated gallery exhibition dynamics, both in terms of time and space: our exhibition venues are unconventional spaces to serve as cultural salons. The focus of Preview is always on the experience and the social interaction rather than on mere objects. Preview has already been presented six times in Milan, five times in London, and two times digitally over the past five years, showcasing the works by more than 50 artists presented by 20 international galleries.

About the participating galleries

Gallery Artbeat is a pioneering contemporary art gallery based in Tbilisi, Georgia representing mid-career and emerging Georgian artists. Between 2014–2017 the gallery started its journey as a project space, a moving gallery using a shipping container for site-specific exhibitions to introduce contemporary art in peripheral locations where museums and galleries don't function. In October 2017 the gallery found its permanent home in the heart of Tbilisi.

The gallery has a significant presence on the international art scene, collaborating with major institutions and museums and taking part in art fairs such as NADA Miami, Untitled Miami, Artissima, Art Cologne, Art Athina, Paris Internationale, ARCO Lisboa, June Art Fair. Our aim is to support artists throughout their artistic journeys, foster cultural activities both locally and abroad, collaborate with international galleries and organisations and mark Georgia on an international art map.

The Raster Gallery is among the pioneers and leaders of the Central European contemporary art market and one of the most recognisable Polish galleries. The gallery cooperates with the most significant institutions and collections, taking part in major art fairs while striving to support and develop Warsaw's local art scene. The Raster also publishes books, art editions and other publications along with contributing to local and international cooperation platforms between galleries. For 20 years they have consistently been presenting the most original artists from Poland and the world.
